More Options Than Ever Await Guests of the Wyndham Lake Buena Vista Disney Springs

Reimagination of Wyndham Garden LBV and All New Oasis Restaurant Completed

Lake Buena Vista, FL. – (October 15, 2020) The [Wyndham Lake Buena Vista Resort Complex](#), just a short walk to Disney Springs, is pleased to announce the completion of its reimagination and \$14 million-dollar guest room renovations and poolside dining.

The resort now features open air, socially distanced dining in the Oasis Restaurant adjacent to the new kids' pool section of our massive aquatic center.

The two official Walt Disney World Resort hotels, the [Wyndham Lake Buena Vista](#) and [Wyndham Garden Lake Buena Vista](#) are packed with many shared amenities. This guest room renovation includes 394 newly reimaged garden-themed rooms for the value-minded guest and another 232 rooms in the upscale 19-story tower overlooking Disney Springs, which features a lake house motif.

“Just in time for your holiday vacation and weekend staycation planning, we have completed a significant transformation that has been several years in the making, said Jay Leonard, General Manager of the Wyndham Lake Buena Vista Resort Complex. We are grateful to those who have pardoned our dust as we worked with top designers and builders to create what we believe will be a great guest experience.”

See You at The All New Oasis Restaurant

Open daily for lunch and dinner, it's ideal for everyone who wants to soak up a day's worth of the Florida sun or simply delight in a refreshing beverage or satisfying meal while watching sports on the big screens in our all-weather dining room.

Handcrafted cocktails, frozen drinks, beer and wine selections and a delicious menu of dining options await poolside. From mouthwatering fish tacos to some of the best chicken wings in town, you will find what you seek at the Oasis Restaurant. Fresh baked pizza, a variety of burgers, sandwiches and salads are prepared to order as you relax at the pool or recharge after an early start at the theme parks.

What's Grown In Our Garden?

Interior Image Group drew the inspiration for the design concepts from the hotel's lobby area, continuing the lake house theme from the tower into the garden guest rooms. These newly recreated rooms allow guests to unwind and relax with the feeling of being in their very own garden retreat.

Jamie Malays served as lead creative designer on both hotel offerings and applied her expertise using multiple fabric textures, wood finishes and a minimal color palette in the garden concept.

“The use of neutral tones such as white, sand and light green helps to maintain a light, crisp, calm and airy space, keeping in line with the theme,” said Malays. The lake house tower guest rooms feature a similar neutral color palette, deeper wood finishes, simple lines and modern accents.”

The exterior facing garden rooms are designed to provide an open and inviting space, with the intent of making guests feel at home. “Designers focused on the functionality of the space, making it blend seamlessly with the minimal room aesthetic, added Malays.”

To reconfigure the guest rooms, the design team concentrated on giving the rooms a refreshing new look and feel including furnishings, fabric textures and colors, flooring, wood finishes, window treatments and lighting fixtures.

Come See Our Birds

Upon entering a reimagined garden room, guests will find themselves in a serene and inviting space. The main design features are the all-white, laminate wood, built-in storage bench unit that is back lit and accented with decorative aviary hooks to hang caps and jackets. This is where functionality meets beauty; it is aesthetically pleasing, and also acts as a multifunctional storage space with room to place luggage and hideaway shoes in the under-bench area. Hidden spaces have also been created within the built-in entertainment center, which conceal a coffee maker and mini refrigerator, and come standard in each room.

The 55” TV is now displayed on a backlit wood finish entertainment wall conveniently opening the space on the new quartz countertops. Maintaining the functional design, the built-in unit has an ample amount of storage space with three large drawers.

Carrying the minimalistic theme over onto the sleeping area, a soft green wood headboard awaits guests, accented with modern light fixtures. The vanity and bathroom also received a significant facelift, starting at the entrance with a new rolling white barn door and a frosted edge back-lit mirror that hangs over the spacious vanity. The design concept can be visualized immediately once stepping into the space and the mix of material comes together beautifully in the garden experience. It’s a space that provides relaxation, coziness and a home away from home for those who choose the Wyndham Garden Lake Buena Vista.
